Summary

I am a student at IDN Boarding School, majoring in RPL (Rekayasa Perangkat Lunak). I have experience in both Front-End and Back-End development, with a particular interest in Back-End development. I have worked on an E-Commerce website project as a Back-End developer, demonstrating my skills in Laravel, Bootstrap, and MySQL. Additionally, I have intermediate skills in using design and editing software such as Figma, Canva, and CapCut.

Experience

E-Commerce Website

Sellie Coffee

01/2024 - Now

This is my UJIKOM project from Sellie Coffee Company, In this project, my role is Back-End where I am responsible for making the Back-End, This is what I used when developing this project :

- Laravel 11
- Bootstrap
- MySQL
- Github
- Breeze
- MidTrans
- XAMPP
- VsCode

*Client were very satisfied with the UI

Laravel API

Komers_Onlen

2023

This is an API project that I made with Laravel 10, This project is like a blog where you can post a blog and then you can leave a review of it too, This is what I used when developing this project :

- Laravel 10
- Postman
- MySQL
- Github
- XAMPP
- VsCode

*The project was successful
